## Seamless Wireless Integration from Capture to Cloud

With Sound's most streamlined workflow yet, you'll be set up and shooting in about two minutes.

**With Sprint AIR® we raised the bar even higher!**  
100% wireless system features the latest technologies: Canon® DR's exceptional image capture with AutoSense

and Sound remote laptop for acquisition and image review. The Sprint AIR® is designed to be reliable, fast and flexible. Your increased productivity allows greater focus on the patient, which always supports a stronger bottom line.

# SPRINT AIR®

## Ultralight DR

Powered by **Canon®**

Sprint AIR® is designed to take the weight off your shoulders and support the daily challenges of the mobile equine veterinary practice.

### Performance

With the fewest possible moving parts, Sprint AIR® is efficient and durable. Guess what's missing: no sync cables, batteries, or boxes. Canon's latest AutoSense - non-generator connection mode is a major medical advancement, now available horse-side.

### Packaged in a tough ballistic nylon pack

Sprint AIR® can run on battery power for a typical full day's work and plug in for those endless days.

### Powerful

With the legendary Canon reliability, Sprint AIR® integrates the latest technology with industry standard image quality in a powerful, go anywhere, image anything platform.

### Productive

Work anywhere, stow anywhere. Sprint AIR® is a productive and profitable asset in your practice.

### Completely Wireless

The Canon® CXDI-801C lightweight, wireless DR panel features AutoSense – non-generator connection mode.

### Ultralight

- Sub 20lbs (9kg) self-contained, including DR panel
- Several panel holder options
- Easy transport. Multiple carrying options

### Flexible

The remote laptop for image acquisition and review works off battery or can plug-in providing a new level of flexibility in workflow.

Protocol Sound™ veterinary optimized algorithms and protocols

# Your Workflow. Your Choice.

## Canon® Digital Radiography Options to Fit Your Practice

Whether your practice is ambulatory, hospital-based or mixed, you will find a DR solution that fits right in with your workflow needs.
