CSDR

small animal

The CSDR small animal DR system is the high specification great value DR system of choice for every small animal application. The high sensitivity cesium DR panel is the key to the CSDR system, it is available with a choice of panel sizes with active areas of 350 x 430mm or 430 x 430mm, both with very narrow edge margin allowing optimal positioning. The panels are available as either wireless or cabled, both are auto synchronising so can be used with any x-ray generator with no cabling.

The CSDR small animal DR system offers superb image quality and reliability at a great price.

CSDR PACKAGE

- Wireless or cabled high resolution cesium DR panel
- Two rechargeable panel batteries
- Panel battery charger
