ImageStore PACS SYSTEM

The new ImageStore PACS system allows absolute secure storage of over 80,000 typical images from unlimited modalities.

All images are distributed and are readily available throughout your practice network.

- ✘ Unlimited modalities can be linked in to ImageStore
- ✘ Unlimited registered users, with three concurrent users being able to view images at any one time. More concurrent users can be added at additional cost
- ✘ All licences are lifetime licences with no ongoing charges
- ✘ Powered by eFilm, the industry standard viewing software
- ✘ Installation and training included

Digital SUPPORT

We offer a range of comprehensive support packages for all of our digital systems from our in house team of Fuji trained digital support engineers. Our low cost fixed price contracts offer great value as well as reassuringly comprehensive cover for your new Fuji CR system.
