A VET COMPANY

Smart DR small animal systems from Sound

New from Sound, the global market leader in veterinary DR systems, comes Smart DR.

Redefining small animal imaging with touch screen simplicity allied to stunning image quality, Smart DR shows the future for veterinary imaging.

- On screen image in 4 seconds
- Bone and soft tissue detail in one image
- Consistent image quality independent of anatomy, view or user
- No image over-processing
- Images seamlessly delivered from acquisition to review to safe storage
- Full 35x43cm size flat panel detector
- Sound small animal algorithms
- Can be retrofitted for use with existing generators
- Backed by our own UK based support team
- 12 month warranty

The Smart DR system from Sound includes everything you could need in a DR system.

DR panel, 21 inch touch screen control and review monitor, PC, software, PMS integration and SoundCloud safe image storage is all included as is delivery installation and on site training.

Ongoing support is provided by our own in house team of Sound trained engineers.

For your own in surgery demonstration of what Smart DR can do for you, just contact us on 01844 344 911
